

CESTUS[®] DEEP II[®] GRIP

MODEL NO. 3076

Working with oil, drilling mud and water in oil and gas production demands high dexterity gripping power, like the grip Deep II™ Grip provides.

An oil-resistant, one-piece Skid-X™ Grip palm adds gripping power on slick surfaces and is double stitched on with Kevlar® thread for added durability. A one-piece, 3D, flexible Thermoplastic Rubber (TPR) shield with elevated knuckles on the back of the glove adds impact protection that bends with the fingers, and offers continuous protection from finger tips to wrist. The neoprene long cuff covers the wrist, while allowing the user to pull out of the glove if caught in a pinch or machinery.

FEATURE KEYS & BENEFITS

- 1 **One-Piece, 3D, Flexible TPR Shield:** Impact resistance for back of fingers down to the fingertips, thumb, knuckles and metacarpals.
- 2 **Skid-X Grip™:** adds oil, water, and petro-chemical resistance, as well as heightened grip control in wet or oily environments.
- 3 **One-piece Palm with Kevlar® stitching:** adds durability and longevity.
- 4 **Long-Cuff design:** adds protection, comfort and “tear-away” ability with heavy machinery.
- 5 **Curved Fingers:** matches natural contour of hand for less hand strain.
- 6 **Easy-Pull Tabs:** allows user to add name and easily put glove on.
